Protecting Your Child's Identity Online

Does your child use the internet?

Do you know what they are using and how to keep them safe online?

With technology changing all the time sometimes it is difficult as a parent or carer to keep up.

Protecting Your Child's Identity Online is a one hour FREE course designed for parents and carers of secondary school children to give a better understanding of what your child is likely to be accessing online and how you can ensure they are safe.

Spaces are limited so call our Customer Service Centre now to book your place on this FREE course.

Protecting Your Child's Identity Online course at:

Catterick Library Tues 11th February 17:30 - 18:30
